

CEG can fully leverage our engineering, environmental, and construction skill sets for a Design-Build approach for resilient projects.

SERVICES

CEG designs, plans, and executes heavy civil, public works, and horizontal construction. Our work is completed to the highest quality and safety standards.

INFRASTRUCTURE

CEG works with water, roadways, bridges, utilities, energy, and other necessary infrastructure that supports the core mission of any installation, facility, or community.

SUSTAINABLE DEVELOPMENT

CEG meets the requirements for technical and functional results, while recognizing the need for conservation of our natural resources.

FULL SERVICE PROJECTS

CEG employs engineers, surveyors, environmental compliance specialists, field superintendents, and technicians to support our construction team. Our professionals work together so our customers achieve their goals efficiently through a single point of responsibility.

SAFETY FIRST

CEG makes safety a priority on all job sites. Our construction managers are OSHA certified and impart common sense and required safety parameters for our employee and our clients' benefit.

- Horizontal Construction
- Sitework & Grading
- Stormwater Management
- Green Infrastructure
- Roadways, Paving, Parking
- Parks & Trails
- Streambank Restoration
- Utility Installation
- Demolition & Disaster Cleanup
- Environmental Remediation
- Concrete Testing

Smart. Sustainable. Solutions.
