

Achieving compliance through professional experience in planning, prevention, mitigation, remediation and maintenance.

SERVICES

CEG delivers a team of environmental scientists and planners that offer services to municipal, state, and federal government, commercial entities, institutions, and firms.

Our professionals offer expertise in ecological services, environmental assessments, environmental permitting, and information management systems.

SOLUTION BASED PLANNING

CEG's environmental team develops solutions that consider your goals, the regulatory requirements, best practices, and ecological conditions. We work closely with our engineering, survey, and technology professionals to deliver project specific solutions.

TRUSTED EXPERTS

CEG's environmental team has extensive experience in guiding clients through the requirements of state and federal regulatory programs. We combine our environmental science backgrounds with positive agency relationships to deliver proactive solutions that meet your project goals. Our proven track record for efficient agency approvals keeps your projects moving forward and in compliance with environmental regulations.
