

MUNICIPAL

# The core business and major commitment of CEG is the provision of value driven engineering services to municipal government.

## SERVICES

Your Municipal Engineer plays a critical role in protecting the health, safety, and welfare of your residents and business community. The CEG team understands and embraces this responsibility and the important role we play in protecting investments in your community.

### LOCAL EXPERIENCE

Since our founding, the core business of CEG has been providing municipal engineering services to local government. CEG has first-hand experience serving residents and officials of scores of local communities as Municipal Engineer of Record (EOR), Stormwater Engineer, Capital Projects Engineer, Grant Consultant, and more. Our staff is committed to value driven services proposing engineering solutions that listen to, satisfy, and grow along with the needs of our clients.

### LAND DEVELOPMENT REVIEW

Our land development reviews are tailored to address the enacted ordinance requirements and address the unique concerns each specific development will have on the entire community. We work hand-in-hand with municipal staff to ensure the impacts on all departments are fully identified, assessed, and minimized. Our reviews are always comprehensive and provided in a timely manner in preparation for scheduled public meetings.
